GE Healthcare
Clinical Accessories that support
Infection Prevention & Control

Infection Prevention and Control Policy is to ensure that the Hospital's provide an environment and system of care which minimises the risk of infection to patients, staff and visitors.

GE Accessories offer a reliable disposable solution that delivers value.

- Single patient use accessories may help **reduce the risk of cross-contamination** and may help **lower the risk of costly equipment associated infections**

- No sterilization or assembly required, which could lead to **time and cost savings**

- **Help reduce the risk of nosocomial infections**

INTENSIVE CARE

Single-Patient-Use Valve
