

# OnWatch Predict

24/7 Remote monitoring and predictive analytics

OnWatch™ Predict provides peace of mind by remotely monitoring and predicting impending failures of critical components in your MR system, helping to convert unplanned downtime into a planned service event.

## Driving predictive, preventive, planned maintenance

Reduce disruptions.  
Enhance care.

Greater confidence and  
convenience. For your  
team and your patients.

**+4.5**

Days of additional  
uptime per year

Make equipment  
service work with  
your schedule –  
not vice versa

↓ 35% reduction of  
customer initiated  
service requests

Expedite and streamline  
necessary repairs with  
planned labor on site

Reduce unplanned  
downtime and limited  
use of system\*

Maintain excellent  
image quality

Remotely monitors  
and predicts  
impending failures of  
critical components

Watching out for  
you 24 hours per  
day, 7 days a week

Advance planning to  
ensure the availability  
of any required  
replacement parts

Wing-to-wing  
service delivered  
with step by step  
communication about  
your service through  
MyGEHealthcare
